

AcSIR-XX-SP	Societal Program: Problem Understanding and Analysis	CREDITS 4
<p>Lecture series on Grassroot Innovations or other relevant topics arranged by AcSIR by CSIR or guest faculty and taught through digital mode. Labs may define appropriate project related to identification of social problems, intervention and value creation for the benefit of the Society. It is suggested that the brainstorming and execution/design be carried out by a team of not less than 3 students. Any other Outreach Program including JIGYASA program may be brought under this module</p>
